## Description of project

The tables below describe the dwellings and common areas within the project

### Common areas of unit building - Block 2E Part 1

| Common area                     | Floor area (m²) |
|---------------------------------|-----------------|
| 2R Gym - L4                     | 163.38          |
| 2R Residential Gallery - L1     | 14.98           |
| RWT Plant room - B2             | 12.51           |
| Other Plant rooms - B2          | 39.62           |
| CCTV Security Dock Manager Room | 8.34            |
| 2R Water Tank Room - L34        | 7.07            |
| 2R AHU Plant Room - L34         | 13.52           |
| 2R Toilet - L0                  | 2.81            |
| 2R Storage room - L1            | 2.37            |
| 2R Changing rooms - L4          | 6.76            |
| 2R Lift Lobby - B4              | 15.6            |
| 2R Lift Lobby - B1              | 14.14           |

| Common area                      | Floor area (m²) |
|----------------------------------|-----------------|
| Lift car (No. 1)                 | -               |
| 2R Residential Library - L1      | 30.16           |
| Grease Arrestor - B2             | 3.48            |
| Water/Gas Rooms- B1              | 2.78            |
| 2R BOH - L0                      | 2.91            |
| 2R Fan Rooms - L34               | 5.78            |
| 2R Storage Room - B4             | 165.57          |
| 2R access Corridor - L0          | 7.90            |
| 2R Toilets - L4                  | 13.10           |
| 2R Corridor to plant rooms - L34 | 18.07           |
| 2R Lift Lobby - B3               | 15.6            |
| Common Corridor - apt Levels     | 736.99          |

| Common area                          | Floor area (m²) |
|--------------------------------------|-----------------|
| Lift motor room - L34                | 2.97            |
| AHU rooms - B2                       | 26.41           |
| Heat Exchange Plant - B2             | 19.46           |
| BOH Store - B1                       | 9.04            |
| Fire control Room - L0               | 3.89            |
| 2R BMU Storage - L34                 | 11.9            |
| Recycling Storage (Residential) - B1 | 8.34            |
| 2R Mail rooms - L0                   | 19.55           |
| 2R Showers cum landscaped area - L4  | 67.14           |
| Ground floor lobby type (No. 1)      | 68.64           |
| 2R Lift Lobby - B2                   | 15.6            |

### Common areas of the development (non-building specific)

| Common area                   | Floor area (m²) |
|-------------------------------|-----------------|
| Car park area (No. 1)         | 2321.3          |
| HW Boiler - B2                | 10.43           |
| BOH Office - B1               | 9.73            |
| Recycling Storage (comm) - B1 | 4.87            |

| Common area       | Floor area (m²) |
|-------------------|-----------------|
| Garbage room - B1 | 24.88           |
| MDF rooms - B1    | 2.78            |
| Laundry Room - B1 | 2.78            |
| Podium - L4       | 67.14           |

| Common area          | Floor area (m²) |
|----------------------|-----------------|
| Grease Arrestor - B3 | 3.48            |
| BOH Amenity - B1     | 8.34            |
| Grease Arrestor - B1 | 3.48            |
| Common Corridor - L0 | 93.55           |

# Schedule of BASIX commitments

## 1. Commitments for unit building - Block 2E Part 1

### (a) Dwellings

- (i) Water
- (ii) Energy
- (iii) Thermal Comfort

### (b) Common areas and central systems/facilities

- (i) Water
- (ii) Energy

## 2. Commitments for attached dwelling houses

## 3. Commitments for separate dwelling houses

## 4. Commitments for common areas and central systems/facilities for the development (non-building specific)

- (i) Water
- (ii) Energy

## Schedule of BASIX commitments

The commitments set out below regulate how the proposed development is to be carried out. It is a condition of any development consent granted, or complying development certificate issued, for the proposed development, that BASIX commitments be complied with.

### 1. Commitments for unit building - Block 2E Part 1

#### (a) Dwellings

| (i) Water                                                                                                                                                                                                                                                                                                                                                                                                | Show on DA plans | Show on CC/CDC plans & specs | Certifier check |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|------------------------------|-----------------|
| (a) The applicant must comply with the commitments listed below in carrying out the development of a dwelling listed in a table below.                                                                                                                                                                                                                                                                   |                  |                              |                 |
| (b) The applicant must plant indigenous or low water use species of vegetation throughout the area of land specified for the dwelling in the "Indigenous species" column of the table below, as private landscaping for that dwelling. (This area of indigenous vegetation is to be contained within the "Area of garden and lawn" for the dwelling specified in the "Description of Project" table).    | ✓                | ✓                            |                 |
| (c) If a rating is specified in the table below for a fixture or appliance to be installed in the dwelling, the applicant must ensure that each such fixture and appliance meets the rating specified for it.                                                                                                                                                                                            |                  | ✓                            | ✓               |
| (d) The applicant must install an on demand hot water recirculation system which regulates all hot water use throughout the dwelling, where indicated for a dwelling in the "HW recirculation or diversion" column of the table below.                                                                                                                                                                   |                  | ✓                            | ✓               |
| (e) The applicant must install:                                                                                                                                                                                                                                                                                                                                                                          |                  |                              |                 |
| (aa) a hot water diversion system to all showers, kitchen sinks and all basins in the dwelling, where indicated for a dwelling in the "HW recirculation or diversion" column of the table below; and                                                                                                                                                                                                     |                  | ✓                            | ✓               |
| (bb) a separate diversion tank (or tanks) connected to the hot water diversion systems of at least 100 litres. The applicant must connect the hot water diversion tank to all toilets in the dwelling.                                                                                                                                                                                                   |                  | ✓                            | ✓               |
| (e) The applicant must not install a private swimming pool or spa for the dwelling, with a volume exceeding that specified for it in the table below.                                                                                                                                                                                                                                                    | ✓                | ✓                            |                 |
| (f) If specified in the table, that pool or spa (or both) must have a pool cover or shading (or both).                                                                                                                                                                                                                                                                                                   |                  | ✓                            |                 |
| (g) The pool or spa must be located as specified in the table.                                                                                                                                                                                                                                                                                                                                           | ✓                | ✓                            |                 |
| (h) The applicant must install, for the dwelling, each alternative water supply system, with the specified size, listed for that dwelling in the table below. Each system must be configured to collect run-off from the areas specified (excluding any area which supplies any other alternative water supply system), and to divert overflow as specified. Each system must be connected as specified. | ✓                | ✓                            | ✓               |

| (a) The applicant must comply with the commitments listed below in carrying out the development of a dwelling listed in a table below.                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                  |                              |                 |
| (b) The applicant must install each hot water system specified for the dwelling in the table below, so that the dwelling's hot water is supplied by that system. If the table specifies a central hot water system for the dwelling, then the applicant must connect that central system to the dwelling, so that the dwelling's hot water is supplied by that central system.                                                                                                                                                                                                                                       | ✓                | ✓                            | ✓               |
| (c) The applicant must install, in each bathroom, kitchen and laundry of the dwelling, the ventilation system specified for that room in the table below. Each such ventilation system must have the operation control specified for it in the table.                                                                                                                                                                                                                                                                                                                                                                |                  | ✓                            | ✓               |
| (d) The applicant must install the cooling and heating system/s specified for the dwelling under the "Living areas" and "Bedroom areas" headings of the "Cooling" and "Heating" columns in the table below, in/for at least 1 living/bedroom area of the dwelling. If no cooling or heating system is specified in the table for "Living areas" or "Bedroom areas", then no systems may be installed in any such areas. If the term "zoned" is specified beside an air conditioning system, then the system must provide for day/night zoning between living areas and bedrooms.                                     |                  | ✓                            | ✓               |
| (e) This commitment applies to each room or area of the dwelling which is referred to in a heading to the "Artificial lighting" column of the table below (but only to the extent specified for that room or area). The applicant must ensure that the "primary type of artificial lighting" for each such room in the dwelling is fluorescent lighting or light emitting diode (LED) lighting. If the term "dedicated" is specified for a particular room or area, then the light fittings in that room or area must only be capable of being used for fluorescent lighting or light emitting diode (LED) lighting. |                  | ✓                            | ✓               |

| <b>(ii) Energy</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <b>Show on DA plans</b> | <b>Show on CC/CDC plans &amp; specs</b> | <b>Certifier check</b> |

**(b) Common areas and central systems/facilities**

| <b>(i) Water</b>                                                                                                                                                                                                                                                                        | <b>Show on DA plans</b> | <b>Show on CC/CDC plans &amp; specs</b> | <b>Certifier check</b> |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|-----------------------------------------|------------------------|
| (a) If, in carrying out the development, the applicant installs a showerhead, toilet, tap or clothes washer into a common area, then that item must meet the specifications listed for it in the table.                                                                                 |                         | ✓                                       | ✓                      |
| (b) The applicant must install (or ensure that the development is serviced by) the alternative water supply system(s) specified in the "Central systems" column of the table below. In each case, the system must be sized, be configured, and be connected, as specified in the table. | ✓                       | ✓                                       | ✓                      |
| (c) A swimming pool or spa listed in the table must not have a volume (in kLs) greater than that specified for the pool or spa in the table.                                                                                                                                            | ✓                       | ✓                                       |                        |
| (d) A pool or spa listed in the table must have a cover or shading if specified for the pool or spa in the table.                                                                                                                                                                       |                         | ✓                                       |                        |
| (e) The applicant must install each fire sprinkler system listed in the table so that the system is configured as specified in the table.                                                                                                                                               |                         | ✓                                       | ✓                      |
| (f) The applicant must ensure that the central cooling system for a cooling tower is configured as specified in the table.                                                                                                                                                              |                         | ✓                                       | ✓                      |

#### 4. Commitments for common areas and central systems/facilities for the development (non-building specific)

##### (b) Common areas and central systems/facilities

| (i) Water                                                                                                                                                                                                                                                                               | Show on DA plans | Show on CC/CDC plans & specs | Certifier check |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|------------------------------|-----------------|
| (a) If, in carrying out the development, the applicant installs a showerhead, toilet, tap or clothes washer into a common area, then that item must meet the specifications listed for it in the table.                                                                                 |                  | ✓                            | ✓               |
| (b) The applicant must install (or ensure that the development is serviced by) the alternative water supply system(s) specified in the "Central systems" column of the table below. In each case, the system must be sized, be configured, and be connected, as specified in the table. | ✓                | ✓                            | ✓               |
| (c) A swimming pool or spa listed in the table must not have a volume (in kLs) greater than that specified for the pool or spa in the table.                                                                                                                                            | ✓                | ✓                            |                 |
| (d) A pool or spa listed in the table must have a cover or shading if specified for the pool or spa in the table.                                                                                                                                                                       |                  | ✓                            |                 |
| (e) The applicant must install each fire sprinkler system listed in the table so that the system is configured as specified in the table.                                                                                                                                               |                  | ✓                            | ✓               |
| (f) The applicant must ensure that the central cooling system for a cooling tower is configured as specified in the table.                                                                                                                                                              |                  | ✓                            | ✓               |

| Central cooling system (No. 1) | -    | Private water meter on make-up line connected to building management system.<br>Conductivity controller installed in the cooling tower. | -                            |

| (ii) Energy                                                                                                                                                                                                                                                                                                                                                                                                             | Show on DA plans | Show on CC/CDC plans & specs | Certifier check |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|------------------------------|-----------------|
| (a) If, in carrying out the development, the applicant installs a ventilation system to service a common area specified in the table below, then that ventilation system must be of the type specified for that common area, and must meet the efficiency measure specified.                                                                                                                                            |                  | ✓                            | ✓               |
| (b) In carrying out the development, the applicant must install, as the "primary type of artificial lighting" for each common area specified in the table below, the lighting specified for that common area. This lighting must meet the efficiency measure specified. The applicant must also install a centralised lighting control system or Building Management System (BMS) for the common area, where specified. |                  | ✓                            | ✓               |
| (c) The applicant must install the systems and fixtures specified in the "Central energy systems" column of the table below. In each case, the system or fixture must be of the type, and meet the specifications, listed for it in the table.                                                                                                                                                                          | ✓                | ✓                            | ✓               |

|                       | Common area ventilation system |                                   | Common area lighting                |                               |                             |

|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. In these commitments, "applicant" means the person carrying out the development.                                                                                                                                                                                                                                                                                                                                                                    |
| 2. The applicant must identify each dwelling, building and common area listed in this certificate, on the plans accompanying any development application, and on the plans and specifications accompanying the application for a construction certificate / complying development certificate, for the proposed development, using the same identifying letter or reference as is given to that dwelling, building or common area in this certificate. |
| 3. This note applies if the proposed development involves the erection of a building for both residential and non-residential purposes (or the change of use of a building for both residential and non-residential purposes). Commitments in this certificate which are specified to apply to a "common area" of a building or the development, apply only to that part of the building or development to be used for residential purposes.           |
| 4. If this certificate lists a central system as a commitment for a dwelling or building, and that system will also service any other dwelling or building within the development, then that system need only be installed once (even if it is separately listed as a commitment for that other dwelling or building).                                                                                                                                 |
| 5. If a star or other rating is specified in a commitment, this is a minimum rating.                                                                                                                                                                                                                                                                                                                                                                   |
| 6. All alternative water systems to be installed under these commitments (if any), must be installed in accordance with the requirements of all applicable regulatory authorities. NOTE: NSW Health does not recommend that stormwater, recycled water or private dam water be used to irrigate edible plants which are consumed raw, or that rainwater be used for human consumption in areas with potable water supply.                              |

## Legend

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Commitments identified with a "✓" in the "Show on DA plans" column must be shown on the plans accompanying the development application for the proposed development (if a development application is to be lodged for the proposed development).                                                                                                                                                                                                                                 |
| 2. Commitments identified with a "✓" in the "Show on CC/CDC plans and specs" column must be shown in the plans and specifications accompanying the application for a construction certificate / complying development certificate for the proposed development.                                                                                                                                                                                                                     |
| 3. Commitments identified with a "✓" in the "Certifier check" column must be certified by a certifying authority as having been fulfilled. (Note: a certifying authority must not issue an occupation certificate (either interim or final) for a building listed in this certificate, or for any part of such a building, unless it is satisfied that each of the commitments whose fulfilment it is required to monitor in relation to the building or part, has been fulfilled). |
