61 HALL STREET BONDI

Landscape Design / Public Domain Plan

December 2010

PROPOSED LANDSCAPE

Low use residential street with large sized evergreen tree. Evergreen tree will provide year round canopy and reflect the adjacent existing planting.

DESIGN INTENT - SOUTHERN FACADE SCREEN

Lush Raphis & Bamboo palms screen the south western facade. A colourful mix of clivia & bromeliads provide colour & detail to the under storey.

SYMBOL	BOTANICAL NAME	COMMON NAME	MATURE HEIGHT	POT SIZE	NUMBER

PLANTER TYPE 1

The proposed species mix is based on a vibrant mix of cascading plants & lush foliage that perform well in shady conditions.

Complimentary foliage and textures form a unified aesthetic from a distance while offering interest from up close.

SYMBO	L BOTANICAL NAME	COMMON NAME	MATURE HEIGHT	POT SIZE	NUMBER
Ae	Aspidistra elatior	Cast Iron Plant	0.5 - 0.9m	200mm	3
Vm	Vinca Major	Periwinkle	0.5m	200mm	3
Vh	Viola hederacea	Native Violet	0.1m	200mm	3
Cc	Clorophytum comosum	Spider Plant	0.5m	200mm	3
Cr	Cissus rhombifolia	Grape Ivy	0.4m	200mm	3

Ctm	Cuphea llavea 'Tiny Mice'	Cuphea	0.45m	200mm	4
Gpr	Grevillea 'Poorinda Royal Mantle'	Grevillea	0.3m	200mm	3

Numbers indicative for 1 X 550 x 3700mm planter only

PLANTER TYPE 2

The proposed species mix is based on a vibrant mix of cascading plants with silvery hues punctuated with deep green. Yellow and mauve flower colours harmonise with silvery tones.

Overtime it is anticipated that the stronger cascading species will out compete the infill species. However, infill species are still included to provide immediate visual interest.

PLANTER TYPE 3

The proposed species mix is based on lush green foliage with tinged new growth for added flashes of colour at the O'Brien entry.

Species have also been selected with consideration of complementary foliage colours and textures to form a unified aesthetic from a distance while offering interest from up close.
