

UTS MEMO

UTS: PROGRAM MANAGEMENT OFFICE

SUBJECT: MP_09_0153-01- DR CHAU CHAK WING BUILDING- 75W APPLICATION- MARKED UP DRAWINGS

TO: DEPARTMENT OF PLANNING

DATE: 22 JUNE 2012

Attached is a set of marked up drawings high-lighting the changes to the facade between the March 4 2012 approved documents and the current design.

The changes can be summarised as:

- Reduction in extent of glazed fly-bys
- Levelling of parapets to terraces and roof level
- Slight modifications to geometry of brick work on eastern façade to adopt buildability issues raised by subcontractor.

These changes are reflected in elevation and plan mark-ups.

The overall net impact of the changes is no increase to the GFA in the original approved submission.
