Dear George,

Auburn Hospital Community Hub – Project Application (MP09_0173)

Following receipt of all submissions made on the above project during the exhibition phase, we have reviewed these comments and where appropriate have added Statements of Commitment to deal with issues that need to be further addressed. Our response to each of the comments made is attached in accordance with s75H(6) of the *Environmental Planning and Assessment Act 1979*.

Overall, it was not considered that any changes were needed to the design or implementation of the project and on that basis the application as submitted is considered to be final with the exception that the Draft Statement of Commitments has been updated and a Final Statement with new Commitments highlighted in bold is attached and should be considered along with the original environmental assessment.

If there is any additional information you require, please let me know. We look forward to the Ministers approval of this project in the near future.

Yours sincerely
