Dear Sir

MCWILLIAM'S WINERY EXPANSION, HANWOOD (MP 0177)
EXHIBITION OF ENVIRONMENTAL ASSESSMENT

In regards to the above development, I have no objection to the proposal of the project, but I would like to see a fence surrounding your boundary and mine to stop any material blowing into the drainage channel or onto my property.

With the building of the waste water treatment plant, where do you intend to build it and what Waste Management Plan will be put in place to address all waste from the site? Also, what mitigation measures are there to prevent pollution of neighbouring properties from the development during and post construction.

Yours faithfully

R. Calabria
