

Objection to Scottish hospital re development

MP 09\_0016

Charles Hunter (0402 907 577)

5 Dillon Street

Paddington Nsw 2021

I strongly object to the re development of the above mentioned.

The removal of the trees is not acceptable (88 trees along with pruning). This part of Paddington is unique with beautiful old trees found nowhere else in Sydney.

The impact on the heritage is not acceptable.

The pretend trade off on the play ground is unacceptable..... you can not take that away from the residents.

The traffic over flow during and after has not been considered and the area cannot withstand that flow.

The parking in residential areas and places as not been addressed.

The community spirit is being ruined by project.

The park is used daily by loads of small children who can not be subjected to the works and the danger.

THE community consultation is being ignored which is extremely disappointing.

I ask as our council to do something about this roort.

Yours sincerely,

Charles Hunter
