**URGENT**

Dear Sir

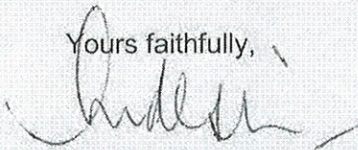

**Re: The Mega Scottish Hospital Plan, Paddington**

We wish to lodge our formal objection to the proposed development of Scottish Hospital on the following grounds:

1. Unsympathetic architecture.
2. Floor area increased by up to 46% from 2002 approved DA
3. New buildings would dominate the original Scottish Hospital building
4. Destruction and poor interpretation of historic terraces dating from the 1800's.
5. 88 trees to be removed – 72 of which are in good condition.
6. 9 storey building on Brown Street is 14 m higher and much wider than the existing.
7. 6 storey building would dominate Stephen St.
8. 184 basement car parking spaces. 2002 DA allowed for 73 spaces.
9. Construction until 2016.
10. Community concerns have been ignored.

We would be grateful if you could register our objections as outlined above.

Yours faithfully,

Don de Silva  
Margaret de Silva &  
Sophia de Silva
