To Whom It May Concern,

**Objections to Proposal MP 10\_0046 - MOD 1**

- The proposed 3 level mining is too risky.  
The proposal claims that there will not be a significant impact on the catchment above but
- ~~the~~ it is not possible to be sure about this
  - the regime for measuring the impact on water catchment & wetlands is not defined
  - the trigger points for ~~an~~ contingent action are not defined
  - the community bears the risk of having our catchment & our wetlands destroyed.
  - this company has a poor record when it comes to doing what they promise environmentally.

I have/have not made a reportable political donation. (Cross out whichever does not apply.)

~~I request that my name is withheld.~~ (Cross out if not applicable.)

Yours sincerely,
