Subject: Barangaroo

The site of the Barangaroo development is publically owned land. Why should any buildings be put up there at all? In my opinion it should ALL BE PARK LAND FOR USE BY THE PUBLIC. We do not need more hotels and office buildings for the use of wealthy tourists, and wealthy business people. Ordinary Australian citizens will not be in a position to access convention centres and hotels suites. The land belongs to the general public and should be for their FREE recreation only.
