

Tree Strategy Stage 1A

Stage 1A

This Schedule of site trees has been prepared in conjunction with Mr David Ford, principal of Treescan P/L, consultant Arborists for the project. This plan generally indicates trees to be retained / protected, or removed to allow for Stage 1A of the proposed site work.

We note the detail of specific tree information, and also the information available to assess likely impacts, will in due course be improved with progression of design development documentation. Proposed new tree planting is generally indicated for these respective works, so that this can be seen alongside tree removal information to provide knowledge of extent of replacement planting.

Stage 1A Tree Strategy
Scale 1:1000 @ A1
