I am against this project as it will damage further the lifestyle and tourism qualities of this part of the Hunter Valley. The area is already subject to a number of barely compatible activities - large scale mining ; agriculture ; grape growing and wine making ; tourism ; armed forces activities ; suburban-style housing estates.

In particular the Pokolbin area is a famous and successful mix of wineries and tourism which bring much to the economy of NSW. Adding thousands of people, cars, houses and the resulting pollution can only damage this.
