Content:

I believe it is important for Council to recognise the obligation to buy appropriate land as offset to the expansion of Awaba Tip.

The green corridor must be strengthened by the purchase of Crown Land viz DP755218 and/or DP1149082, DP1164232 so that threat to flora, fauna and habitat can be minimised.

This extension of the corridor is part of the original Awaba Conservation Area proposed by Council in 1994.

The Awaba Conservation Area is of high biodiversity value and also contains a significant population of *Tetratheca juncea*, which is endemic to the NSW coastal area from the Hawkesbury Valley to the mid North Coast.

Finally, I believe that Council should maintain green corridors in order to provide water catchment areas and safe habitat for fauna between housing developments.
