I was horrified that Graythwaite was ever sold privately in the first place, totally against the designation of this historic site and the very valid objections raised by so many. There has now been no community consultation on this current plan to totally overdevelop this site with the massive buildings proposed to accommodate so many more students and staff, loss of countless trees, and the traffic chaos that will ensue. I join with countless other voices in requesting the Minister for Planning to refuse the project or at the very least to hold a public enquiry.
