Mr Scott Barwick
Associate
SJB Planning Pty Ltd
Level 2, 490 Crown Street
SURRY HILLS NSW 2010

Our ref.: MP10_0180

Dear Mr Barwick,

Subject: Amended Director-General's Requirements for Stage 1 Project Application at 2-32 Smith Street, Summer Hill (MP10_0180)

The Department has received your request dated 31 July seeking to amend the Director-Generals Requirements (DGRs) issued on 16 December 2010 for the Stage 1 Project Approval. It is noted that you seek to expand the boundaries of Stage 1 to include public access to the light rail stop, an additional two retail/commercial buildings and removal of encroachments into the light rail corridor.

The Department has considered your request and has amended the DGRs for the preparation of the Environmental Assessment for Stage 1. These requirements have been prepared in consultation with relevant government authorities. I have also attached a copy of the government authorities' comments for your information.

The DGRs have been prepared based on the information you have provided to date. Please note that under section 75F(3) of the *Environmental Planning and Assessment Act 1979*, the Director-General may alter these requirements at any time. If you do not submit an Environmental Assessment for the project within 2 years of the date of the original DGRs, the DGRs will expire.

Prior to exhibiting the Environmental Assessment that you submit for the project, the Department will review the document to determine if it adequately addresses the DGRs. The Department may consult with other relevant government authorities in making this decision. Please provide 1 hard copy and 1 electronic copy of the Environmental Assessment to assist this review.

If the Director-General considers that the Environmental Assessment does not adequately address the DGRs, the Director-General may require you to revise the Environmental Assessment. Once the Director-General is satisfied that the DGRs have been adequately addressed, the Environmental Assessment will be made publicly available for at least 30 days.

Your contact officer for this proposal, Amy Watson, can be contacted on (02) 9228 6379 or via email at amy.watson@planning.nsw.gov.au. Please mark all correspondence regarding the proposal to the attention of the contact officer.

Yours sincerely

Mark Schofield
A/Director
Metropolitan & Regional Projects South

Amended Director-General's Requirements

Section 75F of the *Environmental Planning and Assessment Act 1979*

Application number	MP 10_0155 (Concept Plan) and MP10_0180 (Project Application)
Project	<p>Concept Plan application for a mixed use residential, retail and commercial development with parking, public open space, new public streets and associated infrastructure works.</p> <p>Stage 1 Project Application for subdivision, partial demolition and construction of 2 to 6 storey residential and mixed use residential/retail/commercial buildings with basement car parking, together with infrastructure works including new public roads, access to the Lewisham West light rail stop and removal of encroachments into the light rail corridor.</p>
Location	2-32 Smith Street, Summer Hill
Proponent	SJB Planning on behalf of EG Funds Management Pty Ltd
Date issued	22 August 2012
Expiry date	If the Environmental Assessment is not exhibited within 2 years of the date of the original DGRs, the proponent must consult further with the Director-General in relation to the preparation of the Environmental Assessment.
Key issues	<p>CONCEPT PLAN</p> <p>The Environmental Assessment (EA) must address the following key issues:</p> <ol style="list-style-type: none"> 1. Relevant EPI's Policies and Guidelines to be Addressed Planning provisions applying to the site, including permissibility and the provisions of all plans and policies are contained in Appendix A. 2. Built Form/Urban Design <ul style="list-style-type: none"> The EA shall address the height, bulk and scale of the proposed development within the context of: <ul style="list-style-type: none"> the surrounding residential area including heritage conservation area/s; the heritage buildings to be retained on site; the adopted Marrickville Council McGill Street Precinct Masterplan; and the Concept Plan application for 78-90 Old Canterbury Road, Lewisham (MP08_0195). The EA shall provide the following: <ul style="list-style-type: none"> Detailed envelope/height and contextual studies demonstrating how the proposal relates to the height of the existing, proposed and approved developments surrounding the subject site and in the locality to ensure the proposal integrates with the local environment and the public domain; Options for siting and orientation of building envelopes, massing and articulation; Visual and view analysis to and from the site from key vantage points; Options for maximising access to and linkages across the proposed Sydney Inner West Light Rail corridor, the proposed Greenway, local path networks and transport facilities such as Lewisham and Summer Hill stations (Evidence of consultation with Railcorp in relation to any work adjacent to the rail corridor and the results of that consultation shall be provided in the EA); and Consideration of any aircraft-related height restrictions (refer to Sydney Airports letter dated 3 December which outlines height restrictions for buildings and temporary structures). The EA shall address the design quality with specific consideration of the façade, massing, setbacks, building articulation, landscape concepts, safety by design and public domain.

3. Land Use

- The EA shall address the relevant metropolitan, regional and local strategies in relation to the desired future mix of land uses, and provide a justification for the amount of residential and non-residential floorspace being proposed.
- The EA shall identify the proportion of housing to be allocated to "affordable housing" and the mechanisms to facilitate this housing including any planning agreement or other binding agreement.

4. Public Domain/Open Space

- The EA must explain the type, function and landscape character of the various private, communal and public areas on site. Pedestrian circulation and linkages between each space should be demonstrated in a schematic form.
- The EA must consider the connectivity to and pedestrian/cycle linkages between the site, the proposed Sydney Inner West light rail corridor and station adjacent to the site, the proposed Greenway, the local path network, Lewisham and Summer Hill Stations, the adopted Marrickville Council McGill Street Precinct Masterplan and the Concept Plan application for 78-90 Old Canterbury Road, Lewisham (MP08_0195). The landscape design treatment should be considered in connection with the Greenway/Light Rail crossing/station design to create a unique identity and high quality public place.
- The EA shall include details on the dedication proposed public areas, including public pedestrian and vehicular access on site and to the proposed light rail station, and consider on-going maintenance needs and costs and public liability cover.
- The EA is to demonstrate how the design of proposed structures and the treatment of public domain and open spaces will:
 - Maximise safety and security within the site and the public domain.
 - Maximise surveillance and activity within the site and the public domain.
 - Comply with Crime Prevention Through Environmental Design (CPTED) principles.
 - Ensure access for people with disabilities.
 - Minimise potential for vehicle and pedestrian conflicts.

5. Environmental and Amenity Impacts

- The EA must address solar access, overshadowing, acoustic privacy, visual privacy and view loss and achieve a high level of environmental and residential amenity.
- The EA must consider any cumulative impacts of the proposal taking into consideration the proposed Sydney Inner West light rail corridor and station adjacent to the site, the proposed Greenway, the adopted Marrickville Council McGill Street Precinct Masterplan and the Concept Plan application for 78-90 Old Canterbury Road, Lewisham (MP08_0195).
- The EA must demonstrate how the Concept Plan addresses the requirements of SEPP 65 and the associated Residential Flat Design Code (RFDC).

6. Transport and Accessibility (Construction and Operational)

- The EA shall provide a Traffic Management and Accessibility Plan (TMAP) prepared in accordance with the RTA's guidelines for TMAP's and to be prepared with reference to the *Metropolitan Transport Plan – Connecting the City of Cities*, the *NSW State Plan 2010*, *NSW Planning Guidelines for Walking and Cycling*, the *Integrating Land Use and Transport* policy package and the RTA's *Guide to Traffic Generating Developments*;
 - The TMAP shall consider traffic generation of the various land uses on site (including daily and peak traffic movements), any required road/intersection upgrades and analysis of intersection capacities to ensure adequate levels of services are maintained, access (including waste collection, deliveries and emergency vehicle access), loading dock(s) including vehicle type and delivery times, car parking arrangements, the impact of additional parking demand for on-street parking in surrounding / adjacent streets, measures to promote public transport usage and pedestrian and bicycle linkages;

- The TMAP shall model the relevant intersections and road network as detailed in the RTA's letter dated 3 December 2010 and Ashfield Council's letter dated 1 December 2010 (Point 6), provide an estimate of the total trips generated by the proposed development and analyse the impact on the road network.
 - The TMAP shall consider any cumulative impacts of the proposal in the context of approved and proposed development within the vicinity of the site:
 - the proposed Sydney Inner West light rail corridor and station,
 - the proposed Greenway,
 - the local path network,
 - Lewisham and Summer Hill stations,
 - the adopted Marrickville Council McGill Street Precinct Masterplan and
 - the Concept Plan application for 78-90 Old Canterbury Road, Lewisham (MP08_0195);
 - The TMAP should consider the appropriate provision of on site car parking for the proposal having regard to the site's very high accessibility to public transport, local planning controls and the RTA guidelines. (**Note:** the Department supports reduced car parking rates). Parking provision for shared cars and adaptive re-use of parking for storage or other uses should also been specifically addressed; and
 - The TMAP should consider demand for on-street parking by potential future light rail users and the need and costs associated with the implementation of a resident parking scheme on the site.
 - The EA shall provide a Transport Map detailing current and proposed public transport provision (bus, rail and light rail) and walking and cycling connections within the vicinity of the site and address the potential for improving accessibility to and from the site, to and from Lewisham and Summer Hill Stations, and connections to the wider region via sustainable transport modes.
 - The EA shall identify measures to manage travel demand, increase the use of public and non-car transport modes, and assist in achieving the objectives and targets set out in the NSW State Plan 2010.
 - The EA should demonstrate impacts of travel demand on bus operations and investigate the provision of bus priority measures at the intersection of Railway Terrace and Old Canterbury Road, and the potential signalised intersection of Edward Street and Old Canterbury Road.
 - The EA should address the potential for implementing a location specific sustainable travel plan, such as a Workplace Travel Plan (WTP) for workers and/or a Travel Access Guide (TAG) for visitors of the site.
- 7. Economic Impact Assessment**
- The EA shall address the economic impact of the proposal and include a detailed investigation into the impact of the proposed retail floor space upon surrounding centres. The EA shall address how the proposal would support the objectives/aims of relevant State and regional strategies for the locality.
 - The EA must consider any cumulative impacts of the proposed retail floor space on the site and the proposed retail floor space within the McGill Street Precinct Masterplan and the Concept Plan application for 78-90 Old Canterbury Road, Lewisham (MP08_0195).
- 8. Noise and Vibration**
- The EA should address the issue of noise and vibration impacts (including from road, heavy rail and aircraft) and provide details of how these will be managed and ameliorated through the design of the building, in compliance with relevant Australian Standards and the Department's *Interim Guidelines for Development near Rail Corridors and Busy Roads*.
- 9. Ecologically Sustainable Development (ESD)**
- The EA shall detail how the development will incorporate ESD principles in the design, construction and ongoing operation phases of the development.

10. Heritage and Archaeological

- The EA shall provide a Heritage Assessment of the site, and a Statement of Heritage Impact for the proposal undertaken in accordance with the Burra Charter assessment procedures.
- The EA shall nominate heritage items to be retained on site and establish urban design principles for proposed buildings to relate and have a sympathetic scale and form to heritage items on the site and the adjacent heritage conservation area.
- The EA shall provide an Archaeological Assessment of Aboriginal and non-Indigenous archaeological resources, including an assessment of the significance and potential impact on the archaeological resources.

11. Drainage / Water Management / Flooding

- The EA shall address drainage/flooding issues associated with the development/site, including stormwater, overland flows, proximity to Hawthorne Canal, drainage infrastructure and incorporation of Water Sensitive Urban Design measures.
- The flood assessment and drainage design should consider the development of the site, in addition to any cumulative impacts of the proposed light rail station located in the floodplain and the development yield of the McGill Street Precinct Masterplan and the Concept Plan application for 78-90 Old Canterbury Road, Lewisham (MP08_0195).
- Evidence of consultation with the NSW Office of Water in relation to the potential impacts on Hawthorne Canal and possible rehabilitation/mitigation measures and the results of that consultation shall be provided in the EA.

12. Groundwater Management

- The EA is to identify groundwater issues and potential degradation to the groundwater source and shall address any impacts upon groundwater resources, and when impacts are identified, provide contingency measures to remediate, reduce or manage potential impacts.

13. Rail Impacts

- The EA shall address geotechnical issues and any impacts on the adjacent light rail corridor. A Geotechnical Report, Structural Report and Construction Methodology in accordance with RailCorp's "Standard Brief".

14. Contamination

- The EA is to demonstrate compliance that the site is suitable for the proposed use in accordance with SEPP 55 – Remediation of Land.

15. Flora & Fauna

- The EA shall address impacts on flora and fauna, including threatened species, populations and endangered ecological communities and their habitats and steps taken to mitigate any identified impacts to protect the environment, both marine and land in accordance with DECC "*Threatened Species Assessment Guidelines 2007*". In this regard, the EA shall include a detailed survey (using a variety of survey methods by a suitably qualified person) of the endangered long-nosed bandicoot population which occurs in this area, and determine whether and how they are using the site and adjoining areas, and assess any potential impact or threat to the population.
- The Commonwealth Department of Environment, Water, Heritage and the Arts should be consulted to ascertain whether the proposed development triggers the need for an assessment and approval under the *Commonwealth Environment Protection and Biodiversity Conservation Act 1999*.

16. Contributions

- The EA shall address the provision of public benefit, services and infrastructure having regard to Council's Section 94 Contribution Plan, and provide details of any Planning Agreement or other legally binding instrument proposed to facilitate this development.

17. Consultation

- Undertake an appropriate and justified level of consultation in accordance with the Department's *Major Project Community Consultation Guidelines October 2007*, including discussion with relevant agencies.

18. Utilities

- In consultation with relevant agencies, the EA shall address the existing capacity and requirements of the development for the provision of utilities, including staging of infrastructure works. Utility capacity planning needs to be considered in the context of the development yields within the McGill Street Precinct Masterplan and the Concept Plan application for 78-90 Old Canterbury Road, Lewisham (MP08_0195).

19. Staging

- The EA must include details regarding the staging of the proposed development (if staged) including details of subsequent Project Applications and Construction Staging.

20. Statement of Commitments

- The EA must include separate draft Statement of Commitments for the Concept Plan and the Stage 1 Project Application detailing measures for environmental management, mitigation measures and ongoing monitoring for the project.

STAGE 1 PROJECT APPLICATION

In addition to addressing relevant items from the list above, the EA for the Project Application must give **detailed** consideration to the following additional project-specific matters:

21. Urban Form and Design

- The EA shall address all relevant requirements of SEPP 65 and the associated Residential Flat Design Code (RFDC).
- The EA shall include with specific consideration of the façade, massing, setbacks, building articulation, appropriate colours, materials, finishes, landscaping, safety by design and public domain, including an assessment against the CPTED Principles.
- The EA shall detail provision of appropriate private and public open space for Stage 1.

22. Public Domain/Open Space

- The EA shall provide details on the dedication of proposed public areas, including public pedestrian/cyclist and vehicular access on site and to the proposed light rail station.
- The EA shall provide details on connections and the relationship between the public domain and the light rail stop/proposed GreenWay/shared path and should seek to create a unique identity and high quality public place.
- The EA shall demonstrate how the design and the treatment of public domain and open spaces will:
 - maximise safety, security, surveillance and activity within the site and the public domain in accordance with CPTED principles;
 - provide access for people with disabilities; and
 - minimise potential for vehicle and pedestrian conflicts.
- The EA shall include details on the design and treatment of proposed new public road/s in accordance with Council's road design standards including measures to:
 - discourage through traffic;
 - ensure a self regulating low speed environment;
 - minimise potential for vehicle and pedestrian/cyclist conflicts; and
 - allow for service/waste collection vehicles to access the site.
- The EA shall include details of measures to manage flood risk within the public domain.

	<p>23. Heritage</p> <ul style="list-style-type: none"> The EA shall identify all heritage impacts associated with Stage 1 works, and provide a detailed Statement of Heritage Impact for Stage 1 works detailing and evaluating any impacts that the development would have on the heritage significance of the site, including both built and landscape heritage (if applicable). <p>24. Drainage/Flooding</p> <ul style="list-style-type: none"> The EA shall identify any water management structures proposed to service the Stage 1 Project Application, including any dams, swales or detention basins. Information regarding the size, location, capacity and purpose of any water management structures. <p>25. Staging and Infrastructure</p> <ul style="list-style-type: none"> The EA shall address how the Stage 1 Project Application development will integrate with the overall Concept Plan proposal, including details of infrastructure work required to ensure that Stage 1 is fully serviced and provided with an appropriate level of infrastructure. <p>26. Construction Impacts</p> <ul style="list-style-type: none"> The EA shall demonstrate how temporary access to the light rail stop will be provided during construction. The EA shall address noise and other impacts during the construction phase of the development and address how these will be managed and mitigated. The EA shall address measures to mitigate any potential impacts to accessibility, amenity and safety of public transport use, walking and cycling during construction, including access arrangements for emergency vehicles and workers and an estimation of the number of truck movements expected during the construction phase. <p>27. Ecologically Sustainable Development (ESD)</p> <ul style="list-style-type: none"> The EA must demonstrate that the development has been assessed against a suitably accredited rating scheme to meet industry best practice and relevant Council controls.
Deemed refusal period	60 days

APPENDIX A

Relevant EPI's policies and Guidelines to be Addressed

- Objects of the EP&A Act 1979
- NSW State Plan

- Nature and extent of any non-compliance with relevant environmental planning instruments, plans and guidelines and justification for any non-compliance.

Plans and Documents to accompany the Application

<u>General</u>	<p>The Environmental Assessment (EA) must include:</p> <ol style="list-style-type: none"> 1. An executive summary; 2. A thorough site analysis including site plans, areal photographs and a description of the existing and surrounding environment; 3. A thorough description of the proposed development; 4. An assessment of the key issues specified above and a table outlining how these key issues have been addressed; 5. An assessment of the potential impacts of the project and a draft Statement of Commitments, outlining environmental management, mitigation and monitoring measures to be implemented to minimise any potential impacts of the project; 6. The plans and documents outlined below; 7. A signed statement from the author of the Environmental Assessment certifying that the information contained in the report is complete and neither false nor misleading; 8. A Quantity Surveyor's Certificate of Cost to verify the capital investment value of the project (in accordance with the definition contained in the Major Development SEPP and DoP Planning Circular PS10-008); and 9. A conclusion justifying the project, taking into consideration the environmental impacts of the proposal, the suitability of the site, and whether or not the project is in the public interest.
<u>Plans and Documents</u>	<p>CONCEPT PLAN APPLICATION</p> <p>The following plans, architectural drawings, diagrams and relevant documentation shall be submitted;</p> <ol style="list-style-type: none"> 1. An existing site survey plan prepared by a registered surveyor drawn at an appropriate scale illustrating; <ul style="list-style-type: none"> • the location of the land, boundary measurements, area (sq.m) and north point; • the existing levels of the land in relation to buildings and roads; • location and height of existing structures on the site, including identification on whether there are any encroachments onto adjacent land; • the common boundary with any RailCorp landholding and any easements and right-of-ways; • location and height of adjacent buildings and private open space; and • all levels to be to Australian Height Datum. 2. A Site Analysis Plan must be provided which identifies existing natural elements of the site (including all hazards and constraints), existing vegetation, footpath crossing levels and alignments, plans and elevations of the station, station concourse, platform and existing pedestrian access points, pedestrian flows, existing vehicular access points and other facilities, slope and topography, utility services, boundaries, orientation, view corridors and all structures on neighbouring properties where relevant to the application (including windows, driveways, private open space etc). 3. A locality/context plan drawn at an appropriate scale should be submitted indicating: <ul style="list-style-type: none"> • significant local features such as parks, community facilities and open space and heritage items; • the location and uses of existing buildings, shopping and employment areas; and • traffic and road patterns, pedestrian routes and public transport nodes.

4. **Architectural drawings** at an appropriate scale illustrating:
 - the location of any existing and proposed building envelopes or structures on the land in relation to the boundaries of the land, setbacks to top of bank/riparian corridors and any development on adjoining land;
 - building envelopes and heights/ levels;
 - extent of basement car parking and deep soil zones;
 - envelope/ land use staging plans and diagrams;
 - the height (AHD) of the proposed development in relation to the land;
 - the level of the lowest floor, the level of any unbuilt area and the level of the ground;
 - any changes that will be made to the level of the land by excavation, filling or otherwise;
 - indicative section drawings showing overall site, building massing and storeys, topography of land, major landscaping, roads, major infrastructure, cur and fill, and the location of the rail corridor boundary and the location of the nearest light rail infrastructure, ie. stanchions and tracks.
5. **A Physical Massing Model** of the proposed development at an appropriate scale for the Concept Plan proposal and which clearly identifies those works associated with Stage 1.
6. **Other documents / plans:**
 - **Stormwater Concept Plan** - illustrating the concept for stormwater management.
 - **Flooding Report** - prepared by a recognised professional which assesses pre and post development flooding implications and mitigation measures in accordance with the NSW Floodplain Development Manual (2005), including the potential effects of climate change, sea level rise and an increase in rainfall intensity. The flood assessment shall consider pre-development flood impacts on the site, the extent of the 1 in 100 year floodplain, and implications for the proposed site layout, building location and habitable floor levels and the post-development implications of any works within the floodplain and measures to mitigate impacts.
 - **Geotechnical Report** - prepared by a recognised professional which assesses the risk of geotechnical failure on the site and identifies design solutions and works to be carried out to ensure the stability of the land and structures and safety of persons.
 - **View Analysis** - Visual aids such as photomontages must be used to demonstrate visual impacts of the proposed building envelopes in particular having regard to the siting, bulk and scale relationships from key areas and may include a 3 Dimensional Model of the proposed development (in CADD format, capable of being imported into Council's computer "Ashfield Simurban" model).
 - **Public Domain/Landscape Concept plan** - illustrating treatment of open space areas on the site, screen planting along common boundaries and tree protection measures both on and off the site.
 - **Shadow diagrams** - showing solar access to the site and adjacent properties at summer solstice (Dec 21), winter solstice (June 21) and the equinox (March 21 and September 21) at 9.00 am, 12.00 midday and 3.00 pm.
 - **Flora and Fauna Report** – to assess the potential flora and fauna impacts and measures to mitigate impacts.
 - **Arborist Report** – outlining retention of existing significant trees within public and communal open space wherever possible, providing justification for trees to be removed and detailing protective measures for the trees to be retained on or in the vicinity of the site.

- **Heritage impact statement** – prepared in accordance with the NSW Heritage Manual and illustrating the impact of the proposed re-use of the building on its heritage value.
- **Archaeological Assessment** – of Aboriginal and non-Indigenous archaeological resources, including an assessment of the significance and potential impact on the archaeological resources.

STAGE 1 PROJECT APPLICATION

In addition to the general assessment requirements specified above, the following additional detailed requirements relate to the preparation of the Stage 1 Project Application (MP10_0180):

1. **Detailed Architectural drawings** at an appropriate scale, illustrating:
 - the location of any existing buildings or structures on the land, in relation to the boundaries of the land and any development on adjoining land;
 - detailed floor plans, sections and elevations of the proposed buildings;
 - large scale elevation and section plans showing building fenestration, articulation, height, entries, windows, balconies and other features, other structures, road/footpath/cycleway pavements, cut and fill, basements, parking, landscaping, and labelled dimensions for space allocation.
 - elevation plans providing details of proposed external building materials and finishes and colour scheme(s);
 - section plans showing the location of the rail corridor boundary and the location of the nearest light rail infrastructure, ie. stanchions and tracks;
 - accessibility requirements of the Building Code of Australia and the Disability Discrimination Act; and
 - notation of the height(s) of the development (AHD) in relation to the land, the level of the lowest floor, the level of any unbuilt areas and the level of the ground, and identification of any changes that will be made to the level of the land by excavation, filling or otherwise.
2. **Detailed Landscape plans** for all public open space and private communal open space areas detailing existing and proposed plantings, any trees to be removed, detention basins, fences, paving and the like, with specific details on the size and species of proposed plantings provided, along with an **Arborist Assessment** of any trees to be removed.
3. A **Schedule of Materials and Finishes** and a **Sample Board**, detailing all proposed materials and external finishes.
4. A **Stormwater and Drainage Plan** indicating the concept for stormwater management, designed in accordance with Council's guidelines.
5. A **Construction Management Plan** to mitigate impacts on neighbouring properties, including the adjacent rail corridor, and on nearby roads, including impacts on pedestrians and cyclists.
6. An **Access Report** to demonstrate compliance with the various Discrimination and Disability regulations for the building and open space areas, as well as access to the surrounding public spaces and integration with surrounding pathways and transport facilities.
7. An **Integrated Water Management Plan** and **Infrastructure Management Plan** should be prepared in accordance with Sydney Water's requirements.

Documents to
be submitted

- 1 hard copy of the EA, plans and documentation, and 1 copy on CD-ROM for the **Test of Adequacy**;
- **Once the EA has been determined adequate** and all outstanding issues adequately addressed, 8 hard copies of the EA for exhibition;
- 8 sets of architectural and landscape plans to scale, including two (2) sets at A1 size (to scale); and
- 10 copies of the Environmental Assessment and plans on CD-ROM (PDF format), each file not exceeding 5Mb in size.

NOTE:

Each file must be titled and saved in such a way that it is clearly recognisable without being opened. If multiple pdf's make up one document or report, these must be titled in sequential order.

APPENDIX B

Concept Approval

Section 75O of the *Environmental Planning & Assessment Act 1979*

As delegate of the Minister for Planning and Infrastructure under delegation executed on 14 September 2011, we the Planning Assessment Commission of New South Wales (the Commission) determine:

- (a) to approve the concept plan referred to in Schedule 1, subject to the terms of approval in Schedule 2 and the Proponent's Revised Statement of Commitments in Schedule 4, pursuant to Section 75O of the *Environmental Planning and Assessment Act 1979*; and
- (b) pursuant to section 75P(1)(a) of the *Environmental Planning and Assessment Act 1979*, the further environmental assessment requirements for approval to carry out the development as set out in Schedule 3.

Member of the Commission

Member of the Commission

Member of the Commission

Sydney

2012

SCHEDULE 1

PART A: PARTICULARS

Application No.: MP10_0155

Proponent: EG Funds Limited

Approval Authority: Minister for Planning & Infrastructure

Land: 2-32 Smith Street, Summer Hill

Lot A, DP 302421; Lot B, DP 302421; Lot 11, DP315; Lot 1, DP 955001; Lot 1, DP 951124; Lot 1, DP 73521; Lot 13 DA315; Lot 14 DP315; Lot 15, DP 315; Lot 16, DP 130884; Lot 1, DP 182276; Lot B, DP 172600; Lot B, DP 171931; Lot 1, DP 302585; Lot 1, DP 171676; Lot 100, DP 221222; Lot 1, DP 131120; and Lot 2, DP 131120 within the Ashfield Local Government Area.

Lot 1, DP900501 within the Marrickville Local Government Area.

Project: Mixed use residential, retail and commercial development incorporating:

- residential, retail and commercial floor space;
- basement car parking;
- publicly dedicated and accessible open space and communal open space;
- new local streets and road works at the intersection of Old Canterbury Road and Edward Street and Edward Street and Smith Street; and
- off site pedestrian upgrades.

PART B: NOTES RELATING TO THE DETERMINATION OF MP No. 10_0155

Responsibility for other approvals/ agreements

The Proponent is responsible for ensuring that all additional approvals and agreements are obtained from other authorities, as relevant.

Appeals

The Proponent has the right to appeal to the Land and Environment Court in the manner set out in the Act and the Regulation.

Legal notices

Any advice or notice to the approval authority shall be served on the Director General.

PART C: DEFINITIONS

Act	means the Environmental Planning and Assessment Act, 1979 (as amended).
Advisory Notes	means advisory information relation to the approved development.
Department	means the Department of Planning & Infrastructure or its successors.
Director General	means the Director General of the Department or his nominee.
Environmental Assessment (EA)	means the Environmental Assessment prepared by SJB Planning dated 6 May 2011.
GFA	means gross floor area.
Minister	means the Minister for Planning & Infrastructure.
MP No. 10_0155	means the Major Project described in the Proponent's Environmental Assessment as amended by the Preferred Project Report.
Preferred Project Report (PPR)	means the Preferred Project Report and Response to Submissions prepared by SJB Planning dated 26 March 2012 and includes the additional information submitted on 20 June 2012 and 20 July 2012.
Proponent	means EG Funds Limited or any party acting upon this approval.
Regulation	means the Environmental Planning and Assessment Regulation, 2000 (as amended).

End of Schedule 1

SCHEDULE 2

PART A - TERMS OF APPROVAL

Development Description

A1 Concept approval is granted to the development as described below:

- adaptive re-use of the existing Mungo Scott Building, silo structures and 3 other buildings and 12 new building envelopes;
- staged construction over 4 stages;
- 280-300 dwellings (29,500-33,500m² GFA);
- 3,500 – 4,000m² of commercial floor space;
- 2,000 – 2,500m² of retail floor space;
- a floor space ratio of 1.4 - 1.6:1;
- up to two levels of basement car parking and 63 on-street car parking spaces;
- 4,806m² of public open space to be dedicated to Council and an additional 5,287m² of publicly accessible open space;
- new local streets serving the development;
- road works including a roundabout at Edward and Smith Streets as part of Stage 1 and a signalised intersection at Old Canterbury Road as part of Stage 3; and
- off-site pedestrian upgrade works in the surrounding area and to Summer Hill Village.

Development in Accordance with the Plans and Documentation

A2 The development shall be undertaken generally in accordance with:

- the Environmental Assessment dated 6 May 2011 prepared by SJB Planning, except where amended by the Preferred Project Report dated 26 March 2012 and additional information submitted on 20 June 2012 and 20 July 2012 and including all associated documents and reports;
- the Statement of Commitments prepared by SJB Planning; and
- the following drawings:

Drawing No	Name of Plan	Drawn By	Date
	Building Identification Plan	Hassell	16 February 2012
A-010 (Rev 2)	Masterplan	Hassell	25 May 2012
A-030 (Rev 2)	Basement Plan	Hassell	5 June 2012
	Building Heights	Hassell	
	Proposed Dedication Plan	Hassell	
	Proposed Open Space Plan	Hassell	
	Deep Soil Plan	Hassell	
	Access and Traffic Strategy		
	Active Ground Level Uses	Hassell	
	Heritage and Adaptive Re-Use	Hassell	
	Staging Plan	Hassell	

except for as modified by the following pursuant to Section 75O(4) of the Act.

Inconsistencies between Documentation

A3 In the event of any inconsistency between modifications of the Concept Plan approval identified in this approval and the drawings/documents including Statement of Commitments referred to above, the modifications of the Concept Plan shall prevail.

Building Envelopes

- A4 Building footprints and setbacks are to be generally consistent with the Concept Plan building envelope parameter diagrams for each site, except where amended by the Modifications in Part B of this Approval.

Maximum Gross Floor Area (GFA)

- A5 The maximum GFA for the development shall not exceed 40,000m² comprising a maximum of:
- 33,500m² residential GFA;
 - 4,000m² commercial GFA; and
 - 2,500m² retail GFA.

Maximum Number of Residential Units

- A6 The maximum number of residential dwellings shall not exceed 300 units.

Lapsing of Approval

- A7 Approval of the Concept Plan shall lapse 5 years after the determination date shown on this Instrument of Approval, unless an application is submitted to carry out a project or development for which concept approval has been given.

PART B - MODIFICATIONS

Building Height

- B1 The plans described above in Part A – Terms of Approval shall be modified to provide a maximum height of RL 48.27 to Building 3C (4 pack silos) excluding the existing lift and blower structure. Plant, lift overrun structures and the like may exceed this height if:
- (a) wholly accommodated within the envelope of the existing lift and blower structure; or
 - (b) a lift overrun is provided abutting the southern end of the lift and blower structure with dimensions and appearance visually integrated with this structure to a maximum height of RL 51.27.

Amended plans, demonstrating compliance with this modification shall be submitted to, and approved by, the Director General.

- B2 The plans described above in Part A – Terms of Approval shall be modified to provide a maximum height of RL 45.4 to Building 5A (6 pack silos and building to the north) excluding the existing lift and blower structure. Plant, lift overrun structures and the like may exceed this height if wholly accommodated within the envelope of the existing lift and blower structure.

Amended plans, demonstrating compliance with this modification shall be submitted to, and approved by, the Director General.

Building Separation

- B3 The plans described above in Part A – Terms of Approval shall be modified to provide a minimum of 12 metres building separation between the 9 and 10 storey components of Building 1A.

Amended plans, demonstrating compliance with this modification shall be submitted to, and approved by, the Director General.

End of Schedule 2
