Shannon

The proposed changes appear reasonable. Council has no objection provided there is no adverse impacts on residents and ratepayers.

Subject: TRIM: FBB proposal to amend DP&E MCOA - C6

Hi Martin & Darren,

Fulton Hogan has recently proposed to the Department of Planning & Environment and Environment Protection Authority a change in the Ministers Conditions of Approval in relation to the approval mechanism for any works we conduct outside of the approved standard hours.

This is detailed below and in no way, impacts on the provision afforded to your rate payers under existing legislation or indeed under our Environmental Protection Licence – it merely helps us reduce red tape.

Both DP&E and EPA appear supportive of our proposal, however we have been asked to consult with both councils on the matter. Can you please advise if Council has any objection to the amendments proposed below?

Kind Regards
