Millers Point NSW 2000

Dear Sir

Barangaroo South R8 & R9 - S75W Design Modifications

This letter is prepared to support the modification to the Project Approval (under section 75W of the EP&A Act) for the NSW Government Department of Planning & Infrastructure ('NSW DPI') Application No. 11_0002 ('MP11_0002'). The modification is to address a series of design changes proposed for the R8 and R9 buildings.

It is confirmed that the design modifications have been reviewed by Renzo Tonin & Associates and do not affect the assessment, findings and conclusions set out in the *Operational & Construction Noise and Vibration Report* [TF854-01F02 (rev 4) O&CNVA, dated 19 November 2012] prepared by Renzo Tonin & Associates for the Project Application.

We trust this satisfies the requirements of the S75W application.

Regards,

Glenn Wheatley
