Rozelle Village

Project Description

Balmain Leagues Club Site

Rozelle, NSW, Australia

Figure 1
Perspective

An aerial architectural rendering of a proposed building complex in Rozelle Village. The central focus is a large, multi-story building with a complex, grid-like facade. It is surrounded by existing residential buildings of various sizes and shapes. A road or path runs diagonally through the scene, separating the central complex from the surrounding neighborhood. The rendering is a line drawing, showing the spatial relationships and building footprints.
