GPO Box 39
SYDNEY NSW 2001

andrew.rode@planning.nsw.gov.au

Dear Andrew

Project: Angus Place Coal Mine – MOD 6 – Water Transfer System and related Springvale Water Treatment Facility
Stage: Advice on Modification Report
Development Application: MP06_021-MOD6 and SSD7592 (MOD 6)

I refer to your correspondence dated 26 November 2020 inviting Regional NSW – Mining, Exploration & Geoscience (MEG) to provide comments on the Angus Place Coal Mine – MOD 6 – Water Transfer System (the Project) and the related Springvale Water Treatment Facility (SWTF) submitted by Centennial Angus Place Pty Ltd (the Proponent).

The relevant units internal to MEG have been consulted in generating this advice. The Department of Planning, Industry and Environment – Energy, Resources & Compliance Division and the Proponent should be aware that matters concerning subsidence, subsidence management, mine operator, safety, rehabilitation and environmental impacts of final landform design are not assessed by MEG and advice should be sought from the Resources Regulator.

MEG has reviewed the information supplied in relation to the abovementioned Project and raises no issues regarding the Project or the SWTF at this time.

For further advice concerning this matter, please contact Scott Anson, Manager Assessment Coordination, Resource Assessments on 02 4063 6534 or assessment.coordination@planning.nsw.gov.au.

Yours sincerely

Scott Anson
