

Andrew Rode  
Senior Environmental Assessment Officer  
Resources Assessments

Via: Major Project Portal

Dear Mr Rode

**Re. Angus Place Coal Mine - MOD 6 - Water Transfer System**

I refer to your request of 26 November 2020 for advice regarding Angus Place Coal Mine Modification 6. The Resources Regulator has reviewed the request.

**Assessment**

Based on the review of the modification report and other documents provided, the Resources Regulator advises that it has not identified any specific concerns or issues requiring comment regarding mine safety or mine rehabilitation matters in relation to the proposal.

**Regulatory requirements if approved**

The proponent is reminded that the proposed activities will need to be covered by a Mining Operations Plan approved by the Resources Regulator under the *Mining Act 1992* prior to the commencement of works.

The Resources Regulator will also undertake assessments of the mine operators' proposed mining activities under clause 33 of the Work Health and Safety (Mines and Petroleum Sites) Regulation 2014 as well as other WHS regulatory obligations.

**Background**

The Mining Act Inspectorate within the Resources Regulator has responsibility for providing strategic advice on environmental issues as they relate to or affect mine rehabilitation.

The Mine Safety Inspectorate within the Resources Regulator is responsible for ensuring the mine operators' compliance with the Work Health and Safety (WHS) legislation, in particular the effective management of risks associated with the principal hazards as specified in the *Work Health and Safety (Mines and Petroleum Sites) Regulation 2014*.

**Contact**

Should you require any further information or clarification, please contact the Office of the Executive Director ([ED.ResourcesRegulator@planning.nsw.gov.au](mailto:ED.ResourcesRegulator@planning.nsw.gov.au))

Yours sincerely,

**Anthony Keon**  
**Executive Director**  
**Resources Regulator**
