Dear Mr Ko

**Subject:** Snowy 2.0 – Transmission Connection (SSI 9717) – Advice on EIS

MEG has reviewed the Environmental Impact Statement for the Snowy 2.0 – Transmission Connection and makes the following comments:

A new Exploration Licence (EL 9056) held by Bullseye Gold Pty Ltd overlies the proposed substation and western portion of the proposed transmission connection. MEG requests the proponent contact Bullseye Gold Pty Ltd to determine their levels of interest.

Queries regarding the above information should be directed to the GSNSW - Land Use team at [landuse.minerals@geoscience.nsw.gov.au](mailto:landuse.minerals@geoscience.nsw.gov.au).

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Steven Palmer'.
