**Subject:** RE: Major Projects – New Request for Advice - MOD 1 - Yarrabee Battery Storage and Transport Route (SSD-9237-Mod-1) (Narrandera Shire)

**5 December 2019**

**Hi Javier**

I refer to the request to the EPA, received on 4 December 2019, for advice in relation to SSD 9237 - MOD 1 – for the Yarrabee Battery Storage and Transport Route.

As per our previous advice about this project the EPA has responsibilities for pollution control and environmental management for scheduled activities under the *Protection of the Environment Operations Act 1997*. Based on the information provided the activity is not a scheduled activity under the *Protection of the Environment Operations Act 1997* and the solar farm does not require an Environment Protection Licence.

Under the *Protection of the Environment Operations Act 1997* Narrandera Shire Council will be the Appropriate Regulatory Authority for pollution control and environmental management issues for this development.

The EPA has reviewed the information provided in support of the application and has no comment on the modification. On this basis the EPA has no further comments to make in relation to this proposal and requires no further consultation about the project.

If you have any further enquiries about this advice please contact me by telephoning 02 6969 0700.

Thanks

**Craig Bretherton**
