Dear Bianca

Request for Advice – SSD-9522 Kemps Creek Warehouse, Logistics and Industrial Facilities Hub – Modification 1

Thank you for your referral dated 28 April 2021 inviting comment from Heritage NSW (HNSW) in relation to the above SSD-9522 Modification proposal.

It is our understanding that the proposed application seeks to modify the existing SSD-9522 Development Consent in stages by amending the sizing and total number of Lots, as well as amending the approved roads and constructing new roadways.

HNSW have reviewed the Instrument of Approval for SSD-9522, issued on 21 December 2021 and notes that Conditions B56 – B63 relate to Aboriginal Cultural Heritage, including conditions regarding statutory reporting requirements, preparation of an Aboriginal Cultural Heritage Management Plan (ACHMP) and an Unexpected Finds Protocol.

HNSW advises that as the current application is a modification to the original SSD-9522 proposal, the proponent should ensure compliance with the Aboriginal Heritage conditions specified in the Instrument of Approval. HNSW recommends the proponent provide documentation demonstrating compliance with the Conditions of Approval - Aboriginal Heritage prior to consideration of the Modification proposal.

If you have any questions regarding the above advice, please contact Rebecca Yit, Archaeologist at Heritage NSW, on 4927 3244 or rebecca.yit@environment.nsw.gov.au

Yours sincerely

Dr Sam Higgs
