Dear Andrew

Project: Airly Mine MOD 3 - Production Rate, Workforce and Train Movement Increases
Stage: Advice on Response to Submissions
Development Application: SSD-5581-Mod-3

I refer to your correspondence dated 24 January 2020 inviting the Division of Resources & Geoscience to provide comments on the Airly Mine MOD 3 - Production Rate, Workforce and Train Movement Increases (the Project).

The Division has reviewed the Response to Submissions document and is satisfied with the information provided by the proponent.

The Division requests to review the draft conditions of approval prior to finalisation and any granting of development consent. The Division has determined that, should the Project be approved, identified risks or opportunities can be effectively regulated through the conditions of mining authorities issued under the *Mining Act 1992*.

For further advice in relation to this matter, please contact the Assessment Coordination Unit – Resource Assessments on 02 4063 6534 or assessment.coordination@planning.nsw.gov.au.

Yours sincerely
