Modification to Lamberts North Ash Repository Upgrades (MP09_0186-Mod-1)

Dear Ms Mazaheri

I refer to the Department's correspondence dated 27 May 2021 seeking WaterNSW's comments on the Modification Report for the Lamberts North Ash Repository Upgrades. WaterNSW appreciates the opportunity to provide comments on the Project.

WaterNSW has reviewed the Modification Report and associated assessment reports and considers this modification can achieve a Neutral or Beneficial Effects on Water Quality (NorBE), if all proposed management measures are appropriately implemented.

If the Department approves the proposed modification, WaterNSW requests the following documents be prepared or updated in consultation with WaterNSW:

- Soil and Water Management Plans for each stage of the works as per Consent Conditions B4 and B5, and
- Operational Environmental Management Plan for Lamberts North Ash Repositories as per Consent Conditions D2 and D3.

WaterNSW requests to remain as a stakeholder and opportunity to continue to be involved in further assessment of the proposal.

If you wish to discuss further, please contact Juri Jung via email at environmental.assessments@watarnsw.com.au.

Yours sincerely
