GPO Box 39  
SYDNEY NSW 2001

**Attention: Joe Fittell**

**MAJOR PROJECT: MP06\_0261 – MOD 6  
HUNTER VALLEY OPERATIONS SOUTH - AMMONIUM NITRATE EMULSION PLANT,  
JERRYS PLAINS**

On 05 August 2021 Transport for NSW (TfNSW) accepted the referral by the Department of Planning, Industry and Environment (DPIE) through the Planning Portal regarding the abovementioned application. DPIE referred the application to TfNSW for comment. This letter is a submission in response to that referral.

TfNSW's primary interests are in the road network, traffic and broader transport issues. In particular, the efficiency and safety of the classified road network, the security of property assets and the integration of land use and transport.

TfNSW have reviewed the Statement of Environmental Effects prepared by Umwelt and dated July 2021. It is understood that the proposal be for the construction and operation of a modular Ammonium Nitrate Emulsion (ANE) manufacturing plant at one of two approved locations within the approved Hunter Valley Operations (HVO) South mine disturbance area.

It is understood from the documentation provided that the proposed modification will not result in any increase to the overall volume of material currently approved to be transported to site via road freight for use in blasting, or include any changes to the approved operations of the site.

TfNSW response & requirements

TfNSW has reviewed the information provided and raises no concerns or requirements for the proposed development as it is considered there will be no significant impact on the nearby classified (State) road network.

On determination of this matter, please forward TfNSW a copy of the Determination. Should you require further information please contact Kate Leonard, Development Services Case Officer, on 4908 7688 or 0428 260 461 or by emailing [development.hunter@transport.nsw.gov.au](mailto:development.hunter@transport.nsw.gov.au)

Yours sincerely

A handwritten signature in black ink, reading 'Kylie-Anne Pont'.
