Dear Ms Mazaheri

**Rasp Mine Modification 6 - New Tailing Storage Facility (MP07\_0018-Mod-6)  
Modification Report**

I refer to your email of 3 September 2021 to the Department of Planning, Industry and Environment (DPIE) Water and the Natural Resources Access Regulator (NRAR) about the above matter.

This modification request is to allow for the co-placement of tailings with excess waste rock from underground mining into Kintore Pit as Tailings Storage Facility 3 (TSF3) is critical to the continuation of mining operation.

The following recommendation is provided by NRAR.

Post Approval

- The Site Water Management Plan should be updated to reflect relocated and additional water management infrastructure and include monitoring, metering and management measures to report on water take (exempt and licenseable), and to address potential impacts to water sources due to the development

Any further referrals to DPIE Water and NRAR can be sent by email to [landuse.enquiries@dpie.nsw.gov.au](mailto:landuse.enquiries@dpie.nsw.gov.au), or to the following coordinating officer within DPIE Water:

Alistair Drew, A/Senior Project Officer- email: [alistair.drew@dpie.nsw.gov.au](mailto:alistair.drew@dpie.nsw.gov.au)

Yours sincerely

Liz Rogers
