Dear Ms Hatem

Notice of Exhibition of application for Sydney Metro West - Modification 2 Clyde stabling and maintenance facility (SSI-10038-Mod-2)

Thank you for your referral dated 8 December 2021 inviting comments from the Heritage Council of NSW on the above State Significant Infrastructure (SSI) proposal.

The proposed modification involves:

- Construct the land formation for the stabling and maintenance facility
- Construction structures over A'Beckett's Creek and Duck Creek, including creek realignment works
- Excavate the Rosehill services facility
- Excavate and construct the Rosehill dive structure and tunnel portal.

The modified SSI does not directly affect any items listed on the State Heritage Register (SHR). There are a number of locally listed items that may be affected.

The following reports were considered in our assessment:

- Appendix A: updated project description
- Appendix B: Revised mitigation measures

As delegate of the Heritage Council of NSW, I note that the modified proposal does not appear to impact historical archeological relics or resources or items of State significance, although additional impacts to locally listed items are proposed as part of the modification.

As the works will impact two local heritage items, one of which is listed on the s.170 heritage and conservation register of a state government agency and another is identified as a 'potential' heritage item, liaison with the local Council and State Government Agency is recommended.

It is noted that the assessment of the 'potential' heritage item should be conducted as previously advised at EIS stage prior to any works commencing, with confirmation of significance values, if any to guide management. Advice should be sought from the relevant state government agency to address s.170 requirements under the *Heritage Act 1977* about the demolition of the item.

No changes to the current conditions of consent, to manage any additional heritage impacts to significant historical archaeology or SHR listed items are recommended as a result of the proposed modification.

If you have any questions, please contact Felicity Barry Senior Historical Archaeologist, at Heritage NSW at 02 9995 6914 or at Felicity.Barry@environment.nsw.gov.au.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Rochelle Johnston'.
