Council has reviewed Modification 9 to State Significant Development Consent SSD-5144 to change Mandalong's approved mine plan by reorienting some of the approved longwall panels, removing longwalls that will not be developed and renumbering of longwalls.

It is noted that there will be marginal increases in impacts on Council's assets within the proposal area. Provided that appropriate mitigation and management measures are continued to be applied, Council has no objection to the development.

Yours faithfully
