

Ms. Ingrid Berzins
Department of Planning, Industry and Environment
GPO Box 39
Sydney NSW 2001

Dear Ms. Berzins,

**Goulburn Base Hospital MOD 2 Design Refinements
(SSD 8667 Mod 2)**

Thank you for your correspondence via ePlanning portal (ref: PAE-724) on 14 October 2019, requesting Transport for NSW (TfNSW) to review and comment on the above modification to the subject State Significant Development (SSD 8667 Mod 2) Application.

The proposed modification includes changes to the Goulburn Base Hospital (GBH) site-layout, signage and materials to provide better public outcomes. On this note, the exhibited documents have been reviewed and the following comment is provided below.

Way Finding

Comment

The proposed modifications include changes to signage to provide better wayfinding outcomes.

Wayfinding outcomes can be further improved by increasing awareness of public and active transport access to and from the hospital.

Recommendation

It is recommended to include wayfinding strategies and travel access guides along with the signage modifications to assist with increasing the mode share of walking, cycling and public transport. Regarding public transport, it is recommended that wayfinding to the nearby bus stops at Goldsmith St and Albert St is included.

If you require clarification of the above, please do not hesitate to contact Ken Ho, Transport Planner, via email at ken.ho@transport.nsw.gov.au.

Yours sincerely

30/10/2019
