Natasha Homsey
Planning & Assessment
NSW Department of Planning, Industry and Environment

natasha.homsey@planning.nsw.gov.au

Dear Ms Homsey

**Hume Battery Energy Storage System (SSD 10460)
EIS**

I refer to your email of 6 August 2020 to the Department of Planning, Industry and Environment (DPIE) Water and the Natural Resources Access Regulator (NRAR) about the above matter.

The following recommendations are provided by DPIE Water and NRAR.

Post Approval

- The Construction Environmental Management Plan should be developed in accordance with the Landcom 2004 (commonly known as the 'Blue Book') guidelines <https://www.environment.nsw.gov.au/research-and-publications/publications-search/managing-urban-stormwater-soils-and-construction-volume-1-4th-edition>
- If the sediment control dam to be used during construction is to be maintained post construction it should be sized to meet the Max Harvestable Right Dam Capacity.

Any further referrals to DPIE Water and NRAR can be sent by email to:

landuse.enquiries@dpi.e.nsw.gov.au.

Yours sincerely

A handwritten signature in black ink, appearing to read 'S. Francis'.
