Dear Ms Anderson

Subject: Sancrox Quarry Expansion Project (SSD 7293) – Environmental Impact Statement

Thank you for the opportunity to provide advice on the above matter. This is a response from the NSW Department of Planning, Industry & Environment – Division of Resources & Geoscience.

The Environmental Impact Statement (EIS) includes a summary of the regional and local geology, cross sections and extractive staging plans. However, to demonstrate the resource has been adequately assessed and reported, the referenced Hanson 2015 resource investigation report should be supplied to the Division.

The proponent should be required to provide annual production data for the subject site to the Division as a condition of development consent.

The Division has no issues with the identified biodiversity offset area.

Queries regarding the above information, and future requests for advice in relation to this matter, should be directed to the Division of Resources & Geoscience - Land Use team at landuse.minerals@geoscience.nsw.gov.au.

Yours sincerely,

A handwritten signature in black ink, appearing to be 'A. Helman'.

Andrew Helman
