Hi Rochelle,

Thanks for confirming, much appreciated. Is there any chance you could put something on letterhead for us to appease Councils concerns?

Happy for you to use or alter the attached draft statement?

Regards,

Sean Kearney

Hello Sean

Peter Meldrum has assessed this site and determined going by the maps and obviously not having access to the site as yet – that going off the attached plan he believes our rear loader trucks will be able to access and turn around as proposed

Hi Sean

The trucks are now coming back into the office and I need to get the new lower one measured. Will get back to you as soon as this truck is back in the yard.

We have to the truck heights but best to measure to check any add on's (after market) to be sure.

Good morning Rochelle,

Have you had a chance to ask around about any trucks in your fleet that could service our Hotel / Office development at 42 Honeysuckle Drive?

I've attached our traffic report which has the waste vehicle swept paths on it. Our Traffic Consultant has used a 'Veolia 9.8m long rear lift' truck to base their swept paths.

Also attached is some drafting of a statement of serviceability that would be great to get on Remondis letter head please. Any questions please give me a call. 😊

Regards,

Sean Kearney

Hi Sean

This is my email if that helps. This below came through so not sure why I didn't get the invite.

lock in Wednesday I will be there either way

Hi Rochelle,

It's been a while since we met at our display suite in Honeysuckle Drv, I've just left a voicemail with you earlier on today. Hope you are well?

We are in need of your help please to provide some industry comment / statement for ability to service waste for our Hotel and Office development. The DA can be accessed at this link and I'll send you a dropbox with all the info. Please let me know if you might be able to help?
