Department of Planning & Environment  
Level 2, 320 Pitt Street  
Sydney NSW 2000

Dear Phillipa

## Re: Maryvale Solar Farm (SSD-8777) Request for Additional Information

I refer to the application and Environmental Impact Statement for the Maryvale Solar Farm (SSD-8777). Please find below a response to the request for additional information:

- pitt&sherry confirm on behalf of the proponent that there are no formal waterway crossings on Seatonville Road north of the transmission line, however at the location where Maryvale Creek crosses Seatonville Road the road has been sealed.
- pitt&sherry have updated SY17238-P-1 to identify all existing waterway crossings (culverts) as identified in a Survey undertaken by Doherty, Smith & Associates.
- pitt&sherry confirm on behalf of the proponent that any additional water would be sourced from an appropriately authorised and reliable supply
- Please find attached a:
  - Revised drawing SY17238-P1 which was included within Appendix C Traffic Impact Assessment
  - Revised constraints map Figure 1-5 from the EIS

Should you wish to discuss further don't hesitate to contact me on 0438 598 793.

Yours sincerely

Jessica Berry  
**Project Manager and Senior Environmental Consultant**
