Dear Mr Hutcheson

Mayfield West Waste Facility-Mod-1 (SSD-7698-Mod-1)
Request for additional information

I refer to the assessment for the Mayfield West Waste Facility Modification 1 (SSD-7698-Mod-1). After careful consideration, the Department is requesting the following additional information:

- Condition B32 of SSD 7698 requires all waste unloaded at the public hand unloading area to be unloaded and stockpiled underneath the awning or within the main processing building. However, p16 of the Modification Report dated May 2021 states the hand unloading activities are approved outdoors with a small awning at the northern end of the main processing shed. To address this:
 - Describe how waste is currently unloaded at the public hand unloading area and where this waste is currently stored on site.
 - Provide further justification for the proposed external storage for material from the public hand unloading area.
- Show where hand unloading would take place in Figure 5 Conceptual layout plan for proposed hand unload shed and apron area of the Modification Report.
- Clarify where light waste will be stored and provide the storage capacity for the bins in the apron area for cardboard, metals and nonferrous metals.
- Provide a copy of the EMM advice to support section 5.2.2 of the Modification Report.
- Provide an updated Development Layout Plan (Appendix A of SSD 7698)
- Provide an updated list of management and mitigation measures, to replace Appendix B of SSD 7698, including but not limited to:
 - A tipping inspector for the hand unload areas (p 23 of the Modification Report)
 - The FEL will not operate in the hand unload shed while customers and light/heavy vehicles are in the shed hand unloading (p 6 of the letter dated 28 June 2021)
 - Public hand unloading shed to be fitted with internal dust suppression (p 16 of the Modification Report).

Please provide the information or notify us that the information will not be provided, by Thursday 29 July 2021. If you cannot meet this deadline, please provide an alternative timeframe for providing this information.

If you have any questions, please contact Katelyn Symington, on (02) 8275 1216/ at katelyn.symington@planning.nsw.gov.au.
