Mr James Wearne
Group Manager Approvals
Centennial Coal Company Pty Ltd
100 Miller Road
FASSIFERN NSW 2283

Dear Mr Wearne

I write regarding landowner consent to enable Centennial Coal Company Limited to submit its application for modification of a development consent.

As the Minister administering the *National Parks and Wildlife Act 1974* for lands reserved as Muggi Murum-ban State Conservation Area, I grant consent to Centennial Coal Company Limited for Modification 3 of State Significant Development 5581 covering the Airly Mine Extension Project.

This consent relates only to the submission of the application for assessment by a consent authority pursuant to Section 4.55(2) of the *Environment Planning and Assessment Act 1979* and Clause 115 of the *Environment Planning and Assessment Regulation 2000*.

In granting this consent, I do not affect the NSW National Parks and Wildlife Service's ability or role as the land manager to provide further advice on this matter during formal agency consultation processes under the *Environment Planning and Assessment Act 1979*.

Yours sincerely
