Dear Howard

Re: Integra Underground, Project Approval 08_0101 – Rehabilitation Management Plan

Integra Underground holds a Mining Operations Plan through to 30 November 2018 for activities associated with mining through to Longwall 14. This MOP forms the Rehabilitation Management Plan required under Schedule 3 Condition 40 of Project Approval 08_0101.

Integra Underground has prepared a new MOP for approval by Department of Planning and Environment – Resources Regulator. This MOP encompasses the approved Modification 8 to Project Approval 08_0101 and associated consultation with regulatory agencies and community stakeholders.

Please find enclosed the MOP document and MOP Plans (Appendix 1). Integra Underground respectfully requests the Department of Planning and Environment confirm that this MOP fulfils Schedule 3 Condition 40 of Project Approval 08_0101 and provides any comments to Integra Underground. A response to this correspondence by 2 November would be greatly appreciated.

If you have any questions relating to this matter, please contact me on 0427 928 906 or chloe.piggford@glencore.com.au. Integra Underground is available to meet with the Department to discuss this MOP, if required.

Yours sincerely

Chloe Piggford
Environment and Community Manager
