### Notes:

Crown Lands provides the following comments:-

Crown Lands understands that the proponent has agreed to undertake an assessment of land status and to seek advice from Crown Lands if Crown land is affected.

For mining operations involving Crown land, Crown roads and Crown waterways the following requirements apply:

1. All Crown land and Crown roads within a Mining Lease (with surface rights), subject to mining or mining related activity, must be subject to a Compensation Agreement issued under Section 265 of the Mining Act 1992, to be agreed and executed prior to any mining activity taking place. The Compensation Agreement may include conditions requiring the Mining Lease Holder to purchase Crown land impacted on by mining activity.
2. All Crown land and Crown roads located within an Exploration Licence, subject to exploration activity, must be subject to an Access Arrangement issued under Section 141 of the Mining Act 1992, to be agreed and executed prior to any exploration activity taking place.
3. All Crown land and Crown roads within a Mining Lease (with sub-surface rights only) must be subject to a Section 81 Consent under the Mining Act 1992 where surface activities are proposed, to be agreed and executed prior to any surface activity taking place.
