Dear Mr Wearne

Newstan Mine Extension Project (SSD – 10333) Supplementary Secretary's Environmental Assessment Requirements

On 23 December 2019, a delegate of the Minister of the Environment and Energy determined that the Newstan Mine Extension Project is a controlled action under the *Environmental Protection and Biodiversity Conservation Act 1999* (EPBC Act).

The Project will be assessed under the Bilateral Agreement between the State and the Commonwealth. As such, the Commonwealth has provided its assessment requirements for the Matters of National Environmental Significance relevant to the project.

I have attached the requirements for your consideration in developing the Environmental Impact Statement for the Project. These requirements are a supplement to the State requirements dated 03 September 2019.

If you have any questions about these requirements, please contact Colin Phillips on the above details.

Yours sincerely,

12/02/20

Matthew Sprött
Director Resource Assessments
as the Secretary's nominee
