Dear Mr Power

## **Integrated Acute Services Building (IASB) Addition - Aboriginal Heritage Assessment**

We write in support of the Mary Dallas Consulting Archaeologists (**MDCA**) proposal for the archaeological and cultural assessment of the additional Road and building works required for the completion of the Acute Services Building (**ASB**) at the Prince of Wales hospital, Randwick.

We understand the ASB extension is an overhead extension/connection but the Lowing of Hospital road will cut through the Botany sand dune within which significant cultural items and associations are found.

We would require that any works proposal be accompanied by consultation and participation of the La Perouse Local Aboriginal Land Council. This would include monitoring and possible follow-up management of material that might be found during the monitoring exercise.

If you would like to discuss this issue further please don't hesitate to contact the La Perouse LALC office on 9311 4282 during business hours.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Chris Ingrey'.

Chris Ingrey  
**Chief Executive Officer**
