- The Atlas of New South Wales Wildlife contains data from sources including government agencies, non-government organisations and private individuals. These data are only indicative and cannot be considered as a comprehensive inventory, and may contain errors and omissions. Records of species listed under Category 2 of the Threatened Species Information Disclosure Policy, 2004 have had their coordinates denatured to the nearest kilometre, as indicated by an asterix in the accuracy column. Search criteria: External Report of all Valid Records of threatened Fauna from 9028 - KIAMA Map No 5. 9028 - KIAMA Map No: This is a list of Endangered Populations, Endangered Ecological Communities and Critical Habitat that may potentially occur within the 9028 Mapsheet It has been produced by
