(Name withheld), of Warrnambool VIC, made the following submission on the project:

Atlas-Campaspe Mineral Sands Project

Supports this project

I support the project as it will greatly benefit the area & NSW in the following:

- Jobs, the major % out of the local townships and rural cities.
- This in turn supports those communities with \$ spent on education and living expenses.
- Rates / Fees and charges for the local Gov.
- The job creation spike as this project ramps up encouraging families to move into the area.
- The growth of local support industries to support the ongoing needs for this project.
- The generation of revenue for the Australian Ecc.
- The demonstrated strength of applicants focus on environmental needs of the Murray Basin.
