Attention Manager Industry Mining & Industry Projects

We wish to object to Application 335119

Crawfords Ammonia Nitrate Storage and Distribution Facility

We are objecting on 2 grounds

① The area of storage has, over a long period proved impossible to secure because of its proximity to the rail line. Regardless of security patrols all the businesses in that area including Crawfords, have been victims of theft or vandalism. We are concerned that it is well known that school aged vandals have caused a great deal of trouble in Shortland area and have also been seen in the Sandgate area, and we are concerned that not knowing the danger some of them or terrorists may cause a fire or explosion.

② We feel that the distribution of the product will result in more trucks will be crossing Maatlard Rd which is almost at its capacity. This will lead to delaying the traffic which in turn will lead to accidents and could have catastrophic results. As this product is for use in the mines we feel it should be stored in that area away from schools and hospitals and business and domestic buildings as is not the situation at the moment.
