Via email: lauren.evans@planning.nsw.gov.au

Dear Lauren,

**Modification 2 to Mandalong Southern Extension Project
SSD-5144 Modification**

I refer to your email dated 24 August 2016 providing the Mine Subsidence Board with an opportunity to comment on the proposed modification to Mandalong South.

I understand this modification will;

- allow for the extended development of first workings associated with maingates for longwall panels 22 and 23 beyond the approved mine plan.
- is not predicted to have any impacts on the natural or built surface environment with predicted subsidence undetectable.
- Any subsequent secondary extraction of the extended longwalls will be subject to a separate modification application.

In consideration of this the Mine Subsidence Board has no objection to the proposal.

Should you require further information in relation to this matter please contact Mr Peter Evans ph 0249084391.

Yours sincerely

Peter Evans
Technical Manager
Mine Subsidence Board
