Dear Ms Evans

RE: Heritage Council comments on modification to increase the annual production limit at Centennial Coal Mandalong (SSD-5144 Mod 3)

I refer to your letter dated 6 October 2016 inviting comments on the above State Significant Development application for a modification to increase the annual production limit from 6 million tonnes per annum to 6.5 million tonnes per annum and the correction of administrative errors currently attached to the SSD-5144 Development Consent.

The modified Environmental Assessment and the documents supporting the proposed modification are reviewed and as the delegate of the Heritage Council of NSW, I provide the following comments:

- The proposed development would not impact on any SHR items.
- The proposed modification does not alter the mining footprint for this coal mine.
- The proposed modification is unlikely to have an additional impact beyond those previously assessed.

If you have any questions regarding the above advice, please feel free to contact James Quoyale, Heritage Officer, Heritage Division, Office of Environment and Heritage, at e-mail: james.quoyale@environment.nsw.gov.au or on telephone: 9873 8612.

Yours sincerely

Rajeev Maini
Acting Manager, Conservation
Heritage Division
Office of Environment & Heritage
As Delegate of the NSW Heritage Council
14 October 2016
