Subject: Viva Energy (formerly Shell) Clyde Terminal - SSD 5147 MOD 1 - Proposed Modification - Notification Letter

Categories: No Comment, Agency Response

Hi Patrick,

NRAR/DoI Water understands the proposed modification relates to the following:

- demolition of the State Office Building, the former 33kV switch yard (MTS1), Tank 106 (slops tank), two LPG spheres (V137 and V140), and the LPG loading gantry
- retention of Tanks 40 and 41 for gasoline storage
- extension of the approved construction period from 4 years to 5 years, to allow for the completion of the Green and Golden Bell Frog habitat restoration works
- administrative amendments to modify or remove completed conditions.

NRAR/DoI Water has reviewed the proposed modification notification and has no further comment in relation to the above changes.

Regards,

Ryan Shepherd | Water Regulation Officer (East)
