

- 1 MAIN ENTRY**  
 The main entry forecourt is a high quality landscape space which offers seating, planting and a paved active area.
- 2 MAIN ENTRY CONTINUATION**  
 The continuation of the entry forecourt across the road is aimed at providing the public with an informal gathering space in close proximity to the main entry and the carpark. This space contains a large seating platform under existing trees and lawn areas.
- 3 SECRET GARDEN**  
 This courtyard is not accessible to the public and therefore it is a 'secret garden'. It is primarily viewed from windows above the space and is heavily planted.
- 4 CARPARK**  
 The carpark is spatially divided using a mixture of tree species and forms. Two pedestrian ways provide a safe connection to the main north/south site pathway.
- 5 RECREATION AREA**  
 The connecting roads to the north and to the west expose the existing recreation area through proximity and tree removal. To maintain privacy there is mass planting and a native tree grove.
- 6 INTERNAL COURTYARD**  
 This courtyard is accessible from both sides of the hospital and features moveable planters with trees, garden beds, paved areas and seating for both staff and public.

MAIN ENTRY

Jacaranda mimosafolia

Pyrus calleryana  
'Red Spire'

Sedum 'Autumn Glory'

Phormium cookianum

Libertia peregrinans

Caprosma kirkki

Gazania tomentosa

Dietes

Convolvulus mauritanicus

Westringia glabra cadabra

Lomandra longifolia

CARPARK

Eucalyptus Microcorys

Pyrus calleryana  
'Red Spire'

Koelreuteria paniculata

Hakea salicifolia

Phormium cookianum

Lomandra longifolia

Libertia peregrinans

Convolvulus mauritanicus

Gazania tomentosum

Sedum 'Autumn Glory'

Westringia glabra cadabra

SECRET GARDEN

Betula pendula

Caprosma kirkii

Helichrysum

Muelenbekia complexa

Liriope muscari

INTERNAL COURTYARD

Citrus

Nepeta faassenii

Agave attenuata

Escallonia 'Pink Pixie'

Teucrium fruticans
