SUBMISSION – SUPPORT APPROVAL

50 WYLLIE ROAD, KEMBLA GRANGE

DEVELOPMENT APPLICATION DASSD5300

Wollongong Recycling have a Development Application currently with Wollongong City Council and NSW State Planning to expand our facility to better serve the public in a bid to increase and support our Environment by way of recycling building and construction waste.

Our new Development Application intends to do this by:

- Another weigh bridge so cars and trucks can be served separate with less waiting time
- More room in our facility to tip off and get loaded
- More bays and more recycling by way of indoor separating
- More recycled products for sale, including: soils, mulch, second hand timber, doors, bricks etc
- Increased stockpiling capacity to avoid running out of materials
- More offices for workers, toilets and sheds
- Recycling information centre
- Lower prices due to the facility running more efficient and having more room and machines
- Indoor composting shed and waste separation
- At least 20 more jobs for the people of the Illawarra
- We would appreciate your signature on this petition showing support for us to help this happen so we can all recycle and do our part together by way of resource and decreasing our community carbon footprint.
- For more information you can go on Wollongong City Council's and NSW State Planning website under planning approvals

Thank you for your support
