

-
- This detailed site plan illustrates the layout of a waste management facility. Key components include:
- Processing and Storage:** An 'INDOOR PROCESSING AND STORAGE SHED' and an 'OUTDOOR PROCESSING AND STOCKPILING AREA' are centrally located.
 - Infrastructure:** A 'VEHICLE TURNING/BACKING AREA' is situated to the right, while 'SKIP BIN STORAGE AREA' is at the bottom right. An 'EQUIPMENT AREA' is also shown.
 - Water Management:** The plan features a 'SHREDDING RUNOFF POND', a 'WATER RECYCLING POND', and a 'DETENTION BASIN A'.
 - Access and Easements:** A 'FUTURE ROAD' is on the left, and easements for a 'GAS PIPELINE' (20' wide & variable) and a 'TRANSMISSION LINE' (45.72' wide) are indicated at the bottom.
 - Site Features:** A 'RESTRICTED STOCKPILING AREA' is highlighted in orange. A 'PROPOSED WORKSHOP' and 'OHS TRAINING ROOM' are located near the bottom center.
 - Topography and Boundaries:** Contour lines show the site's elevation. 'ZONE LINE' markers delineate different regulatory zones.
 - Scale and Orientation:** The plan is oriented with North at the top and includes a scale of 1:500.
