20 September 2017

Attention: Pamela Morales

Dear Sir/Madam,

Modification to Caltex Kurnell Refinery- 2 Solander Street Kurnell

Reference is made to your correspondence dated 19 September 2016 seeking advice regarding bush fire protection in relation to the above application made in accordance with Section 96 of the *Environmental Planning and Assessment Act 1979*. The application seeks approval of amendments relating to the on-site management of asbestos contaminated soils (ACS), identified as part of the ongoing conversion and demolition works for the former Caltex Kurnell Refinery. The proposed modifications involve:

- Disconnection of the tank from the existing pipework;
- Demolition and dismantling of Tank 101 and associated infrastructure;
- Associated civil works with the works outlined above;
- Intermediate storage of the demolished material at the former Caltex Lubricant Oil Refinery (CLOR) prior to disposal or recycling; and,
- Returning the works areas to ground level.

The New South Wales Rural Fire Service advises that it has no objection to the proposed modification and subsequently raises no issues in relation to bush fire.

If you have any queries regarding this advice, please contact Emma Jensen, Development Assessment and Planning Officer, on 1300 NSW RFS.

Yours sincerely,

Jason Maslen
Team Leader- Development Assessment and Planning
