Subject: RE: Cairncross Landfill Expansion - SSD 5792. Attn: Alan Bawden

Heyo Sheelagh

Following on from our phone conversation today with respect to NSW RFS recommendation

A trafficable defensible space is to be provided around the operational stage(s) of the facility to be managed as a 10m inner protection area (IPA)

I telephoned the consultant and discussed their response and they confirmed that a 10 metre IPA can be achieved alongside of 6 metre trafficable defensible space.

Therefore no changes to the NSW RFS recommendations.

Regards

Subject: Cairncross Landfill Expansion - SSD 5792. Attn: Alan Bawden

Hi Alan

I left a message for you yesterday. I have recently taken over management of the Cairncross Landfill project from Deana Burn, who is on extended leave.

Attached is supplementary information provided by the Applicant dated 9 May 2019 in response to your letter of 13 March 2019.

I would appreciate it if you could review this information and advise if RFS is satisfied that all its outstanding issues have been adequately addressed and has no further comments.

If you have any questions, please feel free to contact me.

Kind regards

Sheelagh Laguna
